

CLUBMAN

A fresh, modern booking system for ski clubs

Clubman doesn't crash.

- Clubman runs on multiple servers at once, in multiple data-centres. We're cloud native.
- Our software is carefully tested.
- We design for 10x more load than we actually see.

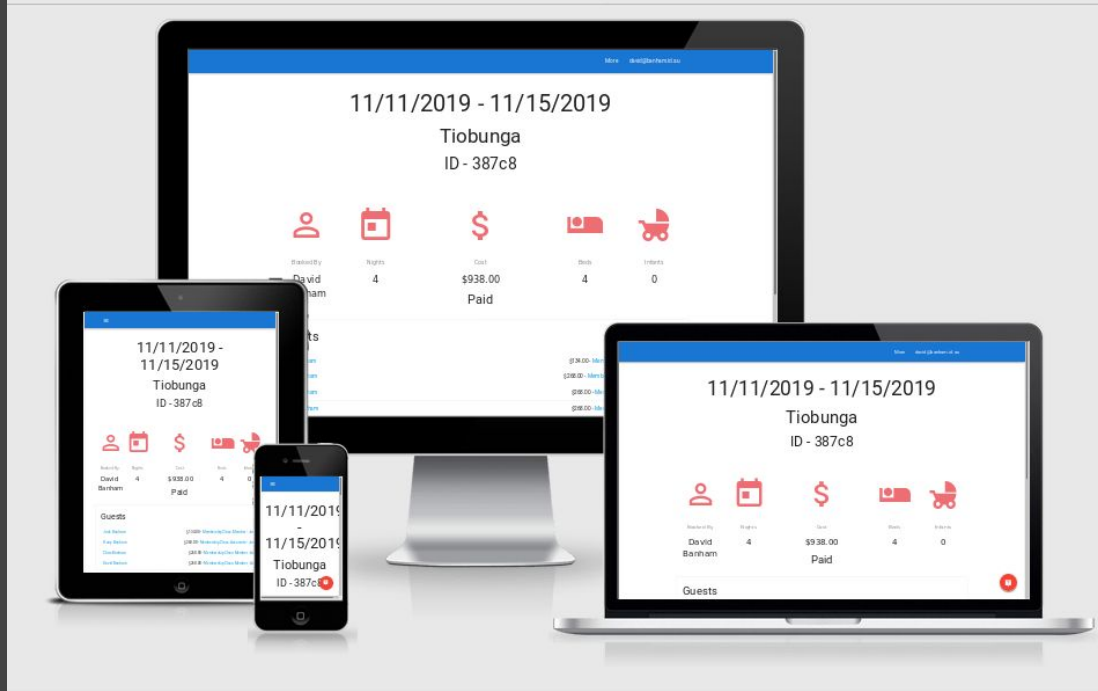

Clubman understands *your* organisation. No matter how complex.

The flexible rules engine can be configured with any custom booking rules your club needs.

Secure payments

Clubman integrates with Stripe for bulletproof payments and invoices.

Your club owns its own Stripe account and controls the data in it.

Only 1.75% + 30c per transaction for Australian credit & debit cards.

The image shows a payment modal for a 'Booking'. At the top, there is a circular profile icon with the letter 'C'. Below it, the title 'Booking' is displayed, followed by 'Lodge booking' and the email 'david@example.com'. The payment details section shows a Visa card with the number '4242 4242 4242 4242', an expiration date of '01 / 22', and a CVV of '123'. There is a 'Remember me' checkbox which is currently unchecked. At the bottom of the modal is a large blue button labeled 'Pay A\$938.00'. The modal has a close button in the top right corner. In the background, parts of other UI elements are visible, including 'ID - 38/c8', 'how detail', 'Unpaid b', 'hour of m', and 'ancelled'. At the very bottom of the page, there are links for 'Terms' and 'Privacy'.

Easy Member Communications

Members are automatically notified of their bookings, annual fees and other charges.

It's easy to send an email to all, or some, of your members through Clubman.

Brindabella ski club is one of Australia's oldest.

With nearly 500 members, 3 lodges in two resorts, 10 membership classes, complex booking rules and several booking rounds...

Clubman is proud to be the only platform that can meet their needs.

Strong Experience

Clubman is built by Notbad Software. We are proud of our reputation in the industry and the products we've built.

We bring the same reliability and quality to everything we do.
